What an ACHIEVEMENT!

**ALL THINGS
LLOYDS
BANKING GROUP
(LBG)**

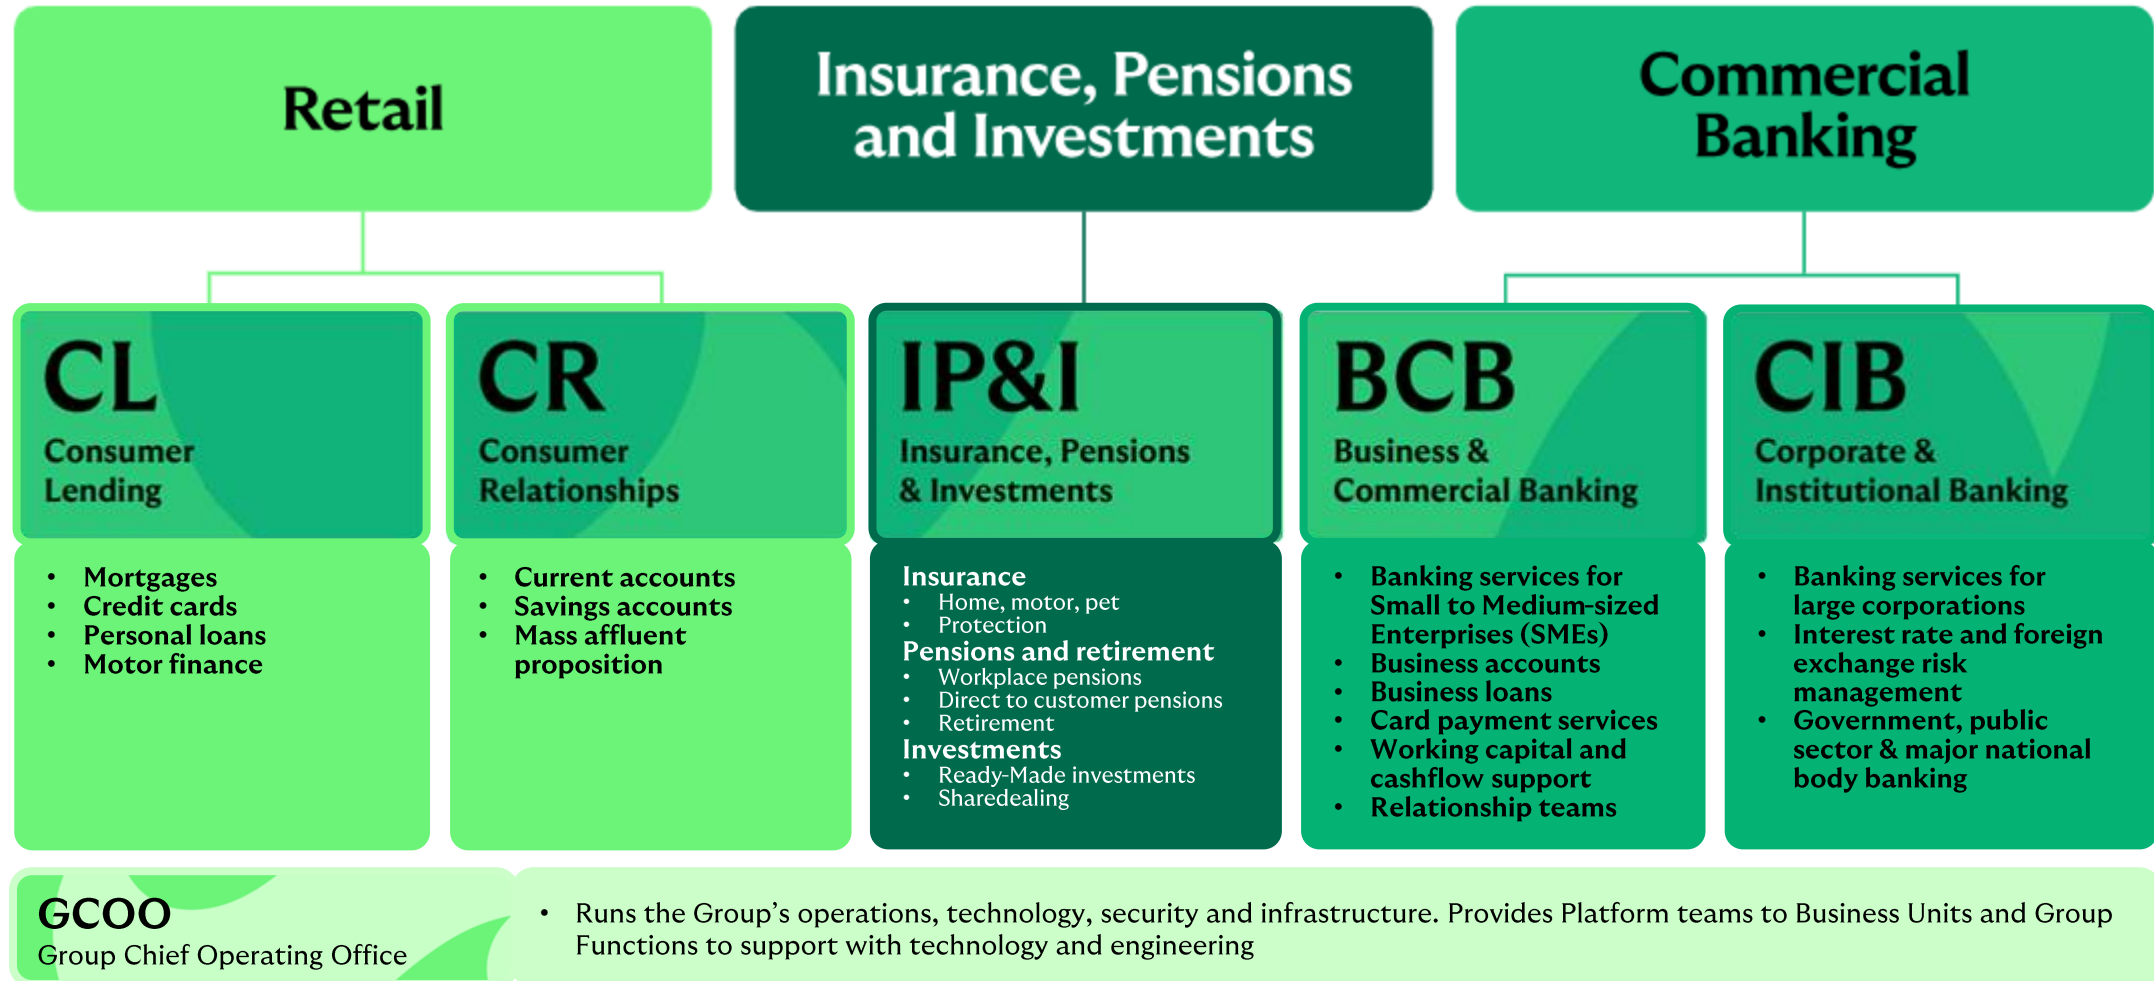

- The UK's largest retail and commercial financial services provider
- The UK's largest digital bank
- An organisation with 325+ year history
- A Group with 23m digitally active users
- 65,000+ colleagues working to deliver the right outcome for customers, communities and colleagues
- A company driven by a core purpose to Help Britain Prosper
- Home to some of the UK's most well-known brands

Serving our customers' needs

Lloyds Banking Group

We have three core divisions that have been structured to serve our customers' needs effectively

Serving those that serve our customers

Our Group Functions, Group COO and Platforms support our five Business Units to achieve their goals by providing the infrastructure, expertise, and resources to drive operational excellence, business performance, and customer centricity

Group Functions

GCA Group Corporate Affairs	GF Group Finance	GA&CI Group Audit & Conduct Investigations	L&S Legal & Secretariat	P&P People & Places	Risk	GSB Group Sustainable Business
• Leads the Group's reputation, media and press relations, internal and external communications and manages engagement with key stakeholders	• Manages the Group's financial planning, performance and reporting	• Provides independent oversight, audit and conduct to keep the Group safe	• Provides legal advice and supports the Group with governance and regulatory requirements	• Looks after colleagues, HR, culture, workplaces, DE&I and overall colleague experience	• Identifies, manages and reports risks to keep the bank safe and resilient	• Drives the Group's sustainability strategy, climate commitments and social impact agenda

Also aligned
to Group COO

GCOO Group Chief Operating Office	• Runs the Group's operations, technology, security and infrastructure. Provides Platform teams to Business Units and Group Functions to support with technology and engineering

Key foundations for scaling AI in an Enterprise

Focus on Value

- Customer & Colleague experience
- Benefits Targets
- Key initiatives

Enterprise Toolkits

- Engineering
- Colleague Productivity

Responsible and Safe by Design

- AI Risks
- Policies and controls
- AI Assurance Framework

Scalable Delivery Model

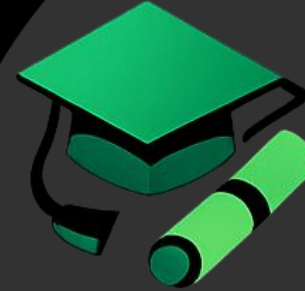

- Decentralised delivery with strong central enablement

Data Products and Context

Partnerships & External Narrative

Big Tech, Fintech, Regulators, Benchmarks, Investors

In 2025, we delivered £50m+ of benefit with Gen AI

Customer Interactions

Gen AI solutions to improve customer experiences

Example use case:
GenAI powered in-app search function (awarded 'Best AI use in Finance')

Customer Operations

Operational use cases to support back-office efficiency

Example use case:
Complaints handling and automation

Frontline & RM Support

Help colleagues meet customer needs more efficiently

Example use case:
Knowledge management tool rolled out to >20k colleagues

Colleague Assistants

Interfaces to give colleagues easy access to information

Example use case:
HR assistant rolled out across the group

Engineering Support

Faster and more modern code through AI

Example use case:
c. 5k engineers leveraging GitHub Copilot for coding

The impact is felt across the organisation...

1 min

to examine over 1,000 audits
with our GenAI enabled
chatbot

11,000

lines of legacy code
converted to modern
languages with Github
CoPilot

800+

AI models in production
across the Group

57

new GenAI use cases in
production in 2025

30,000

customer-facing colleagues
use our Athena knowledge
management tool

4,000

working days saved with our
HR solution Prosper

97%

active usage of Microsoft Co-
pilot

4m

LLM-enabled searches in our
app every month

5 mins

to process commercial real
estate lending decisions using
agentic AI

Focus on Value

How are we building on momentum?

We have identified Big Bets which will move the dial for AI at LBG

Customer Interactions

Operations

Colleague Productivity

We scale AI delivery by empowering colleagues throughout the Group

Strong Central Enablement with
decentralised delivery

Enabled by...

Building Capability

Upskilling
Next Gen Talent
Partnering

Shared Best Practice

Forward Deployed AI Specialists
AI Pattern Store
Delivery Playbooks
Communities of Practice

Applied R&D

Delivering solutions for system evaluation,
guardrailing, agent design...

Data Science & AI Graduates

Agenda

15:05 – 15:10	Data Timeline Brief overview of your joining timeline Jo Normanton
15:10 – 15:20	Data Culture Engine Jo Normanton
15:20 – 15:25	Your Data Scheme Brief overview of your Data programme Jo Normanton
15:25 – 15:30	Question Time Your chance to ask any scheme related questions you may have
15:30 – 16:00	Cambridge Spark All thing Data Science & AI Bootcamp Nick Neasom
16:00	Finish Wrap up & Goodbye for now

Your Data timeline

03 Sept

Welcome to your Local Hubs!

Your first day on-site, meet your cohort and get settled.

**Week 2
Team Time**

Induction activities, software downloads, and bonding with your new team.

18 Sept

Bootcamp Induction Session

This will be a virtual introductory session about all things bootcamp, so you are ready to go

13 Nov

Data Science & AI Bootcamp Wrap-Up

Celebrate your progress and get ready to apply your new skills.

**17 Nov
Data Sessions**

This will be the beginning of a series of data sessions to help build on your foundational LBG data knowledge

**04 Sept
Tech Ready Day**

Get your laptop, logins, and tools sorted so you're ready to hit the ground running.

**15 Sept
Activation Event**

A high-energy event to spark inspiration and connect with the wider community.

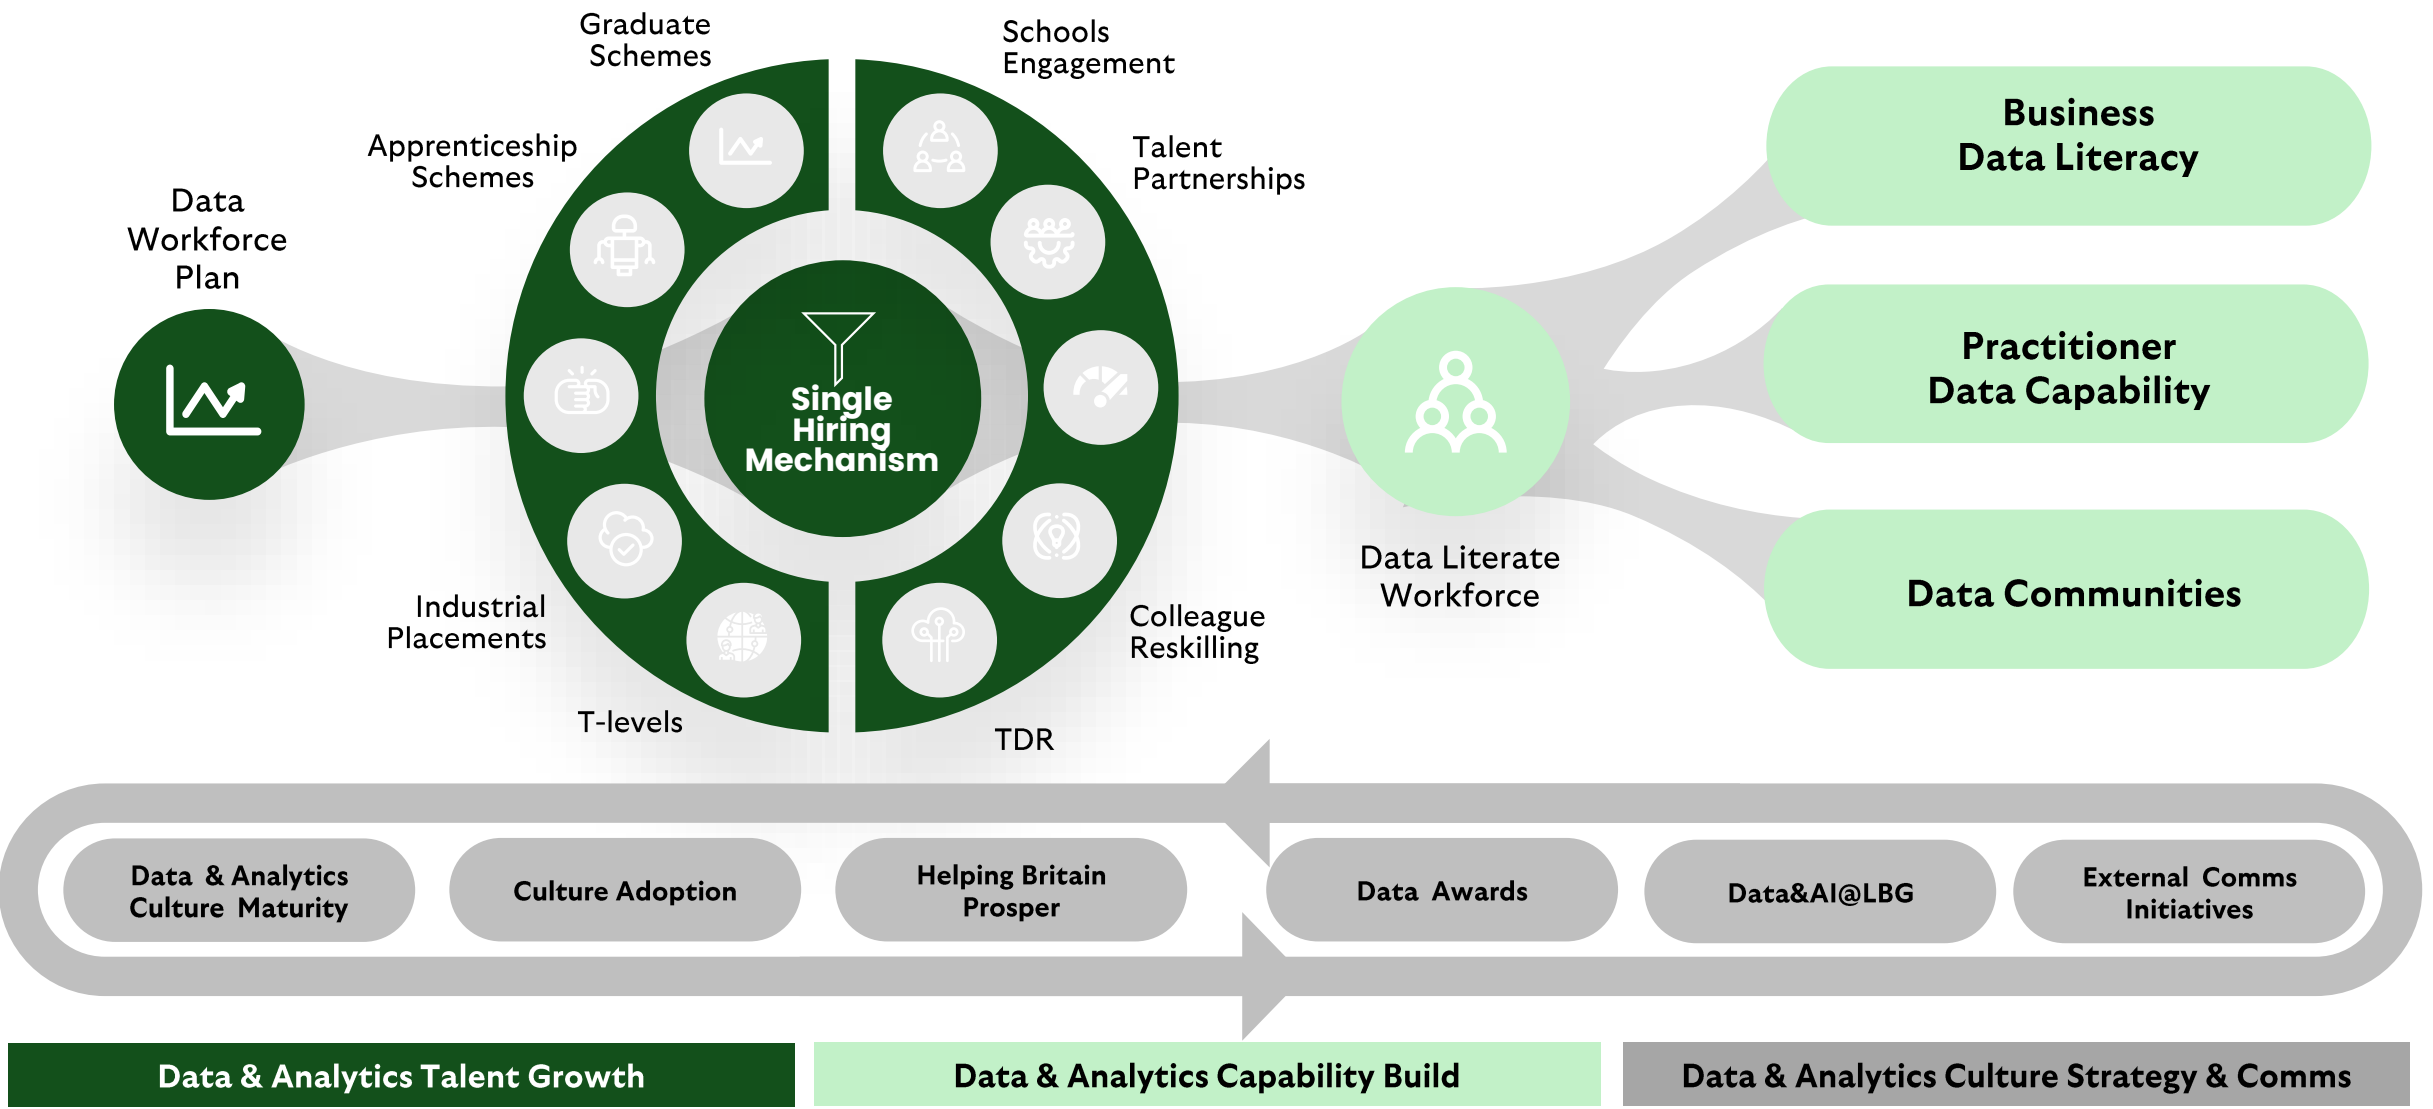

**21 Sept
Bootcamp Begins**
Kick off your learning journey with sessions designed to build your skills fast.

**16 Nov
Team Time**

Time to fully join your placement one team, apply your skills & get involved in all things LBG

Data Culture Engine

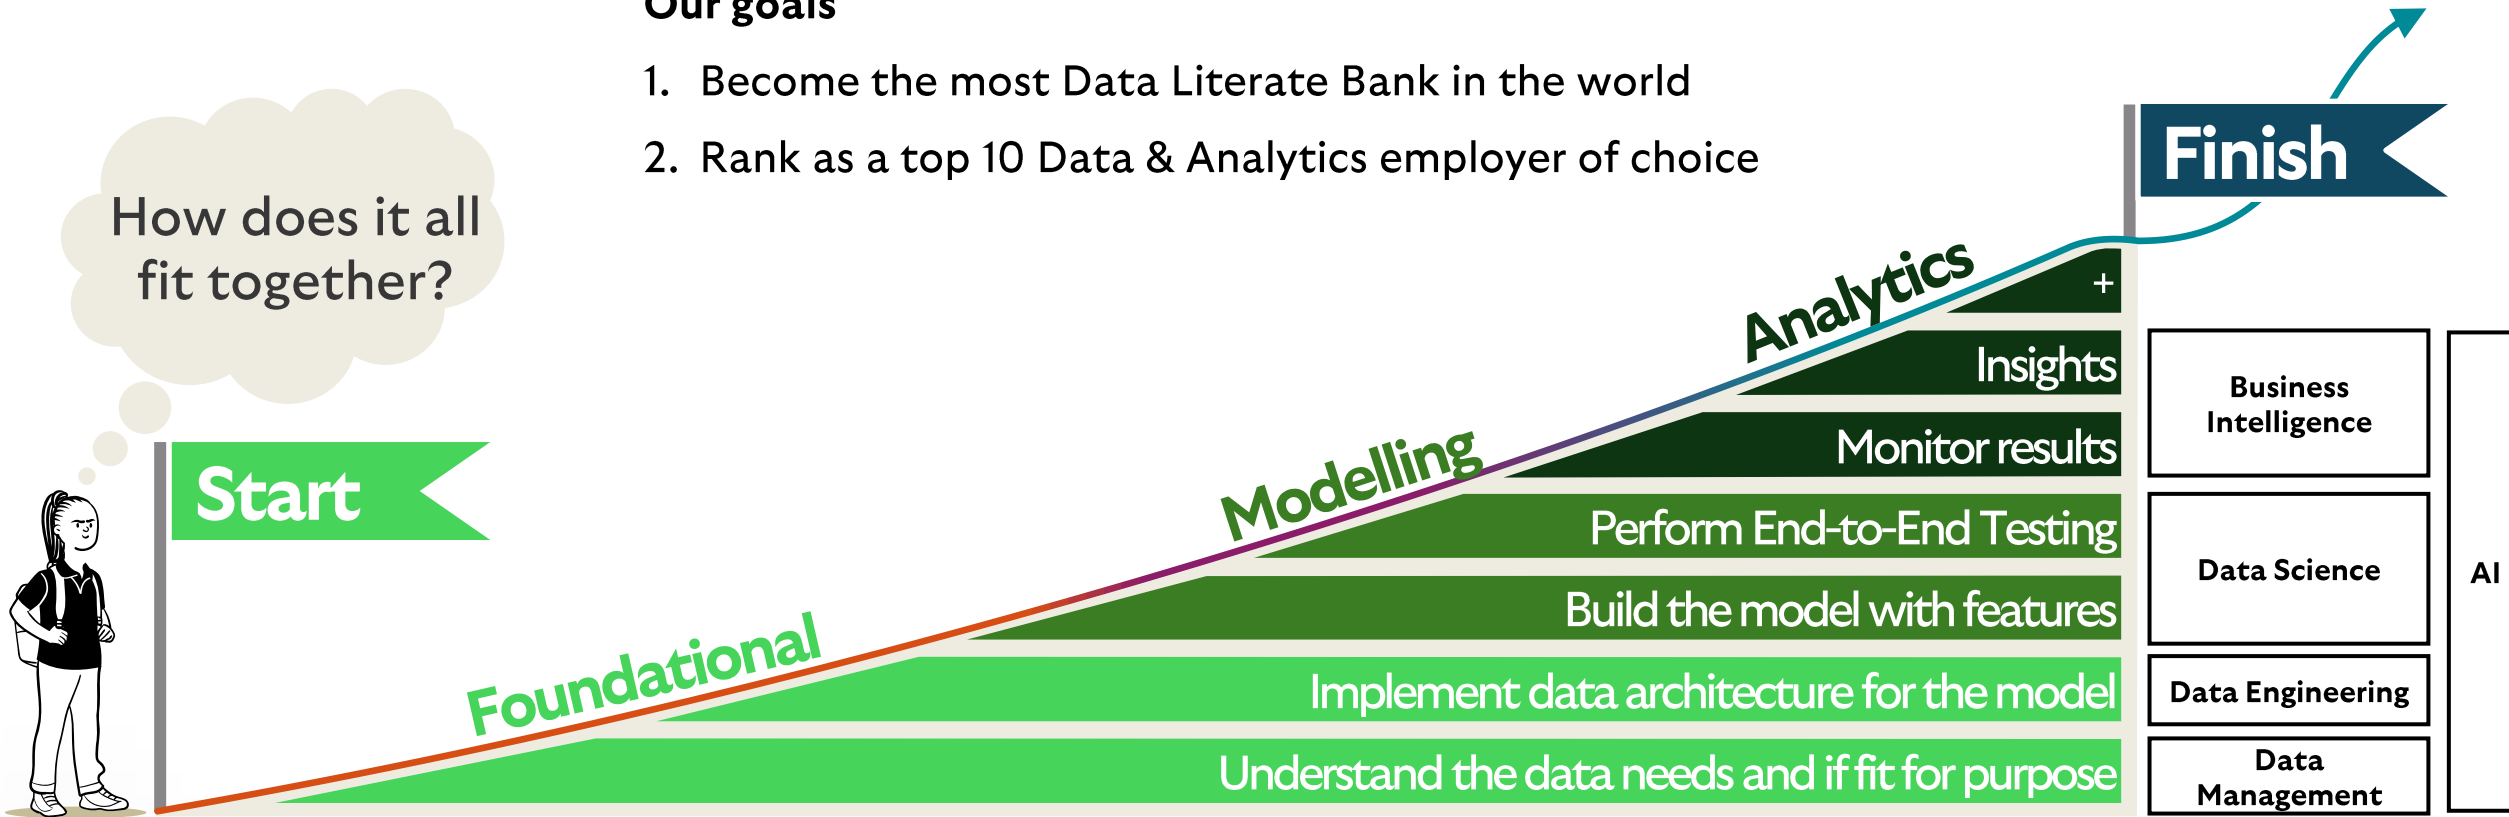

Why?

The data graduate programme exists to ensure Lloyds Banking Group (LBG) has a **pipeline of skilled, diverse, and future-ready data and AI talent**. Data Graduate schemes are the only schemes which span the Group, which creates a great opportunity to drive data capability uplift.

Our goals

- 1. Become the most Data Literate Bank in the world
- 2. Rank as a top 10 Data & Analytics employer of choice

Data Science & AI

2-year scheme | 3 x 8 Month Placements

Qualification:

Artificial Intelligence Professional Programme via Stanford University

Bootcamp:

8 Week Bootcamp delivered by Cambridge Spark

Placements:

Potential to be placed in these job families, across LBG :

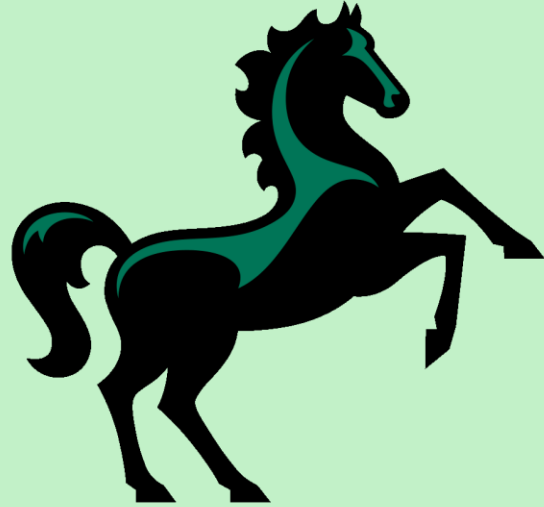

- ☐ Data & AI Data Scientist
- ☐ Machine Learning & AI Engineering
- ☐ Data Engineering
